

## **MINA CHARTER SCHOOL**

### **EC and 504 Testing Accommodation Implementation**

All teachers will receive training on EC and 504 accommodations. EC and 504 testing accommodations documentation is completed on forms provided to teachers. The documentation is checked periodically by school administration and the testing coordinator. General education teachers are provided an IEP at-a-glance document for each student they have with an IEP. This document, which is provided by the EC teacher, includes the student's goals and accommodations for class work and testing. The IEP at-a-glance is updated whenever there is a change on a student's IEP. The EC teachers, administrator, and special education team will provide information regarding how to provide the accommodations.
